Garment Racks - Steel Shelves
Speed Rail & Partition
(212) 244-1069

1. POST:

Roll formed 12 gauge rail steel angle upright $1\frac{1}{4} \times 1\frac{1}{4}$ with holes punched on both legs 1" on center for vertical adjustment of shelves. Lengths of 3'3", 4'3", 4'3", 5'3", 6'3", 7'3", 8'3", 9'3", 10'3", 11'3", 12'3".

2. SHELF:

Formed into channel shape with vertical and two return flanges on all four sides (triple Bend) for added strength. Stock sizes are 24", 30", 36", 42", 48" wide, depths of 9", 12", 15", 18", 24", 30", 36". Special sizes are also available.

3. PERFORATED SHELF:

Shelves are punched on 1" centers to accommodate shelf dividers. Stock sizes are the same as above.

4. SIDE PANEL:

Used on closed type shelving. One panel may be common to two adjacent units. (Sides over 4'3" consist of overlapping pieces.)

5. BACK PANEL:

Used on closed type shelving. One panel may be common to back to back units. (Backs over 4'3" consist of overlapping pieces.)

6. BACK SWAY BRACE:

Used on open type shelving to prevent lateral sway and add rigidity.

7. SIDE SWAY BRACE:

Used on open type shelving for added rigidity.

8. ANGLE SWAY:

Used in place of sway braces when unobstructed entry is required.

9. REINFORCEMENT ANGLE:

12 Gauge Rail Steel angle snaps into flange of shelf. Used to prevent deflection of heavily loaded shelf.

10. SHELF DIVIDER:

Used to divide shelf into bin compartments. Attaches to shelves with clips or nuts and bolts.

11. BIN FRONT:

Prevents small items from rolling out of bins. Attaches to upright post.

12. BASE STRIP:

Prevents litter from accumulating under shelf, adds strength to bottom shelf.

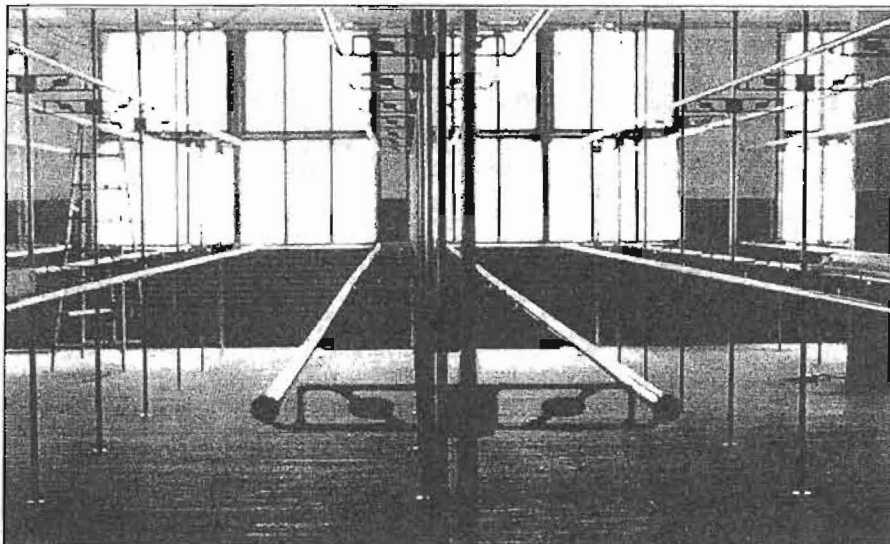

FINISH:

Durable baked-on gray enamel. Other colors available on request.
